OUR INITIATIVES

Environmental sustainability

Proven Group recognises a shared responsibility to protect our planet. We reduce the environmental impact of our businesses through preservation, conservation and waste management. Used lead acid batteries are recycled through Proven Group's Yangon Metal Industry Co. Ltd., to produce high quality lead ingots. Modern recycling methods minimise lead wastage with strict emphasis on pollution control and workplace safety.

Proven Technology Industry Co., Ltd. processes lead ingots with plastic cases made by Proven Polyworld to produce new lead acid batteries. Products are rigorously tested in modern laboratories for quality assurance and customer satisfaction. We strongly advocate the Reduce-Reuse-Recycle approach.

Social Sustainability

As a leading business in Myanmar, we create employment opportunities and make a difference in the communities in which we live and work. We are an equal opportunity employer dedicated to promoting a diverse workforce and ensuring that our employees operate in safe work conditions.

We are strictly against child labour and the Zero Tolerance Policy. As a privately-held company for over 20 years, we take great pride in taking care of our employees, being good stewards in our community and partnering with other responsible organisations.

The like-minded organisations with whom we partner engage in activities that promote community service and philanthropy, and to provide support for disadvantaged groups.

Proven Group is committed to the highest standards of corporate citizenship. We will continue to improve our work places, contribute to communities we serve and ensure our actions are socially, ethically and environmentally responsible.

Economic Sustainability

Our products contribute directly to sustainable solutions for our nationwide customers. Some examples of these solutions include our ability to guarantee long full life-cycle batteries to our customers.

We also encourage customers to swap used batteries for new ones with incentives, so they can save costs and we can operate in an environmentally sustainable manner.

Our Vision

To maintain our position of being Myanmar's leading lead acid battery manufacturer, supporting the development of the automotive assembly and manufacturing sector in Myanmar. We aim to become a recognised Myanmar product brand in the region.

Our Mission

"Customer Satisfaction and continual quality growth by Solution of Success".

We are committed to providing quality products, and excellent services. We provide consultation on selection of battery types, proper installation, inspection, maintenance, product warranty, free check-up programme at sale centres and free scheduled on-site-check-up programs. We keep in touch with our dealers and customers to improve our product and service quality. We called this our **"Solution of Success"**.

Our Commitment

We are committed to offering high quality products and services to our valued customers. We stand by our product quality by offering warranty and worry-free battery care roadside assistance in major cities.

YANGON METAL INDUSTRY Co., LTD.

Yangon Metal Industry

Company (YMI) buy and collect million of the used Lead-Acid batteries, through out of Myanmar, then transform into secondary lead. In other words, transform waste batteries into the raw material for other industries. YMI supply refined and alloy lead for battery manufacturers and other industry users around the world.

ENVIRONMENTAL FRIENDLY SMELTING

“Yangon Metal Industry Company (YMI) is the first pioneer industrial secondary lead smelter in Myanmar, produce Pure Lead and other various lead alloys for various industries.”

SECONDARY LEAD SMELTING

Practice of ISO 9001(Quality Management System)

Plastic Injection. Original Equipments Manufacturer. Contract Manufacturer.

ISO 9001 (QMS)

“PPW aims to become a leading Original Equipment Manufacturer for various industries while maintaining its leadership on the plastic parts for automotive battery industry.”

“Proven Polyworld Co., Ltd. (PPW) is the plastic injection company which produces automotive battery related parts such as battery containers, covers and accessories. PPW was set up to become one of the leading plastic injection service providers in the Original Equipment Manufacturing sector such as automotive, electronics garment industries, etc.”

PRODUCTION TEAM

“Well experienced & trained personnel as new & retraining programme provided. A variety of guide, standard and specification designed to guide them to the best performance.”

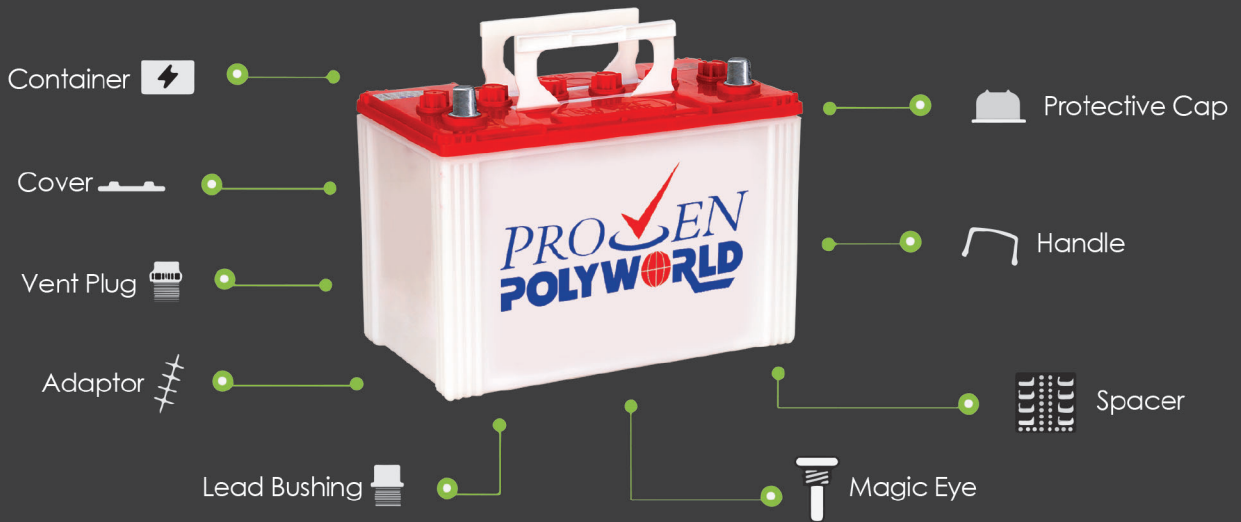

METHODS

"We use the methods as set in guide book, standard operating procedures, work instruction, all updated specification & manual to prepare & control the quality of products & services from the beginning of customer order until delivery."

"EQUIPMENT

Special test, inspection & measurement equipment designed for product by product basis."

QUALITY CONTROL

"Workmanship samples are provided as guide to all personnel for the standard level of goods rejection and acceptance."

INSPECTION

"All personnel are trained to ensure continuous assurance of product quality especially quality personnel."

OEM SERVICES

"We also provide original equipment manufacturing".

PROVEN INTERNATIONAL

Automotive Related Products Distributing

Proven International Co., Ltd.(PI) was established in 2014. Its vision is to make a significant impact in Myanmar Automotive Industry by PI started distributing lubricants in 2015. By 2017, PI has added 3M Auto Care, essenza lubricants, and X-1R lubricant additives. We continue to cooperate with international suppliers to create more products offering to our distribution channels and customers.

SUSTAINABILITY AND CORPORATE SOCIAL RESPONSIBILITY

Proven Groups of Company strongly committed to sustainability and corporate social responsibilities across all areas of our activities. These areas include:

- Environmental management
- Waste generation and recycling
- Fair labour practices
- Employee safety
- Encouraging sustainable attitudes throughout our value chain
- Developing products and solutions that promote sustainability

Our commitments are assessed and certified by a range of internationally recognised certifications:

- **ISO 9001 (QMS)** - for consistently providing products that meet the customer satisfaction and regulatory requirements.
- **ISO 14001 (EMS)** - for meeting the requirements about significant environmental aspects, such as the environmental policy of our organisation, the nature of our activities, products and services and the location and the conditions in which they function.
- **OHSAS 18001** for the satisfactory operation of our management system.
- **Responsible Care®** - for our commitment to health, safety and security in the chemical industry by the Myanmar Industries Association and JETRO Yangon.
- **ASEAN – OSHNET** - best practices award 2016 in recognition for your contribution to workplace occupational safety and health by ASEAN member states and the Ministry of Labour-Invalids and Social Affairs of Vietnam.
