Proven Group of Companies Ltd – Company Profile

Proven Technology Industry Co., Ltd., a private shareholding company, was established in 1996 to manufacture TOYO lead-acid batteries for automotive and lighting. Building on this foundation, Proven Group of Companies Ltd. was formed in 2016 and has since evolved into a strong and diversified business group with a growing network of subsidiary companies.

Our subsidiaries play a vital role in resource allocation, financial investment, and strategic direction, enabling the Group to operate cohesively while advancing future development projects across multiple sectors.

We are a vision-driven organization, and our long-term strategy is to establish Proven Group as a leading conglomerate with a diverse portfolio that includes:

- Battery manufacturing and distribution
- Secondary lead smelting
- Plastic injection and OEM services
- Automotive-related products distribution
- Solar inverters and renewable energy accessories for next-generation energy solutions

With an unwavering commitment to excellence in both products and services, we continuously deliver value to all stakeholders. Today, Proven Group is recognized as one of the most well-known and competitive leaders in our core industries—standing out as a forward-looking, innovative, and reliable business group.

OUR INITIATIVES

Environmental Sustainability

Proven Group recognises a shared responsibility to protect our planet. We reduce the environmental impact of our businesses through preservation, conservation and waste management. Used lead acid batteries are recycled through Proven Group's Yangon Metal Industry Co. Ltd., to produce high quality lead ingots. Modern recycling methods minimise lead wastage with strict emphasis on pollution control and workplace safety.

Proven Technology Industry Co., Ltd. processes lead ingots with plastic cases made by Proven Polyworld to produce new lead acid batteries. Products are rigorously tested in modern laboratories for quality assurance and customer satisfaction. We strongly advocate the Reduce-Reuse-Recycle approach.

Social Sustainability

As a leading business in Myanmar, we create employment opportunities and make a difference in the communities in which we live and work. We are an equal opportunity employer dedicated to promoting a diverse workforce and ensuring that our employees operate in safe work conditions.

We are strictly against child labour and the Zero Tolerance Policy. As a privately-held company for over 20 years, we take great pride in taking care of our employees, being good stewards in our community and partnering with other responsible organisations.

The like-minded organisations with whom we partner engage in activities that promote community service and philanthropy, and to provide support for disadvantaged groups.

Proven Group is committed to the highest standards of corporate citizenship. We will continue to improve our work places, contribute to communities we serve and ensure our actions are socially, ethically and environmentally responsible.

Economic Sustainability

Our products contribute directly to sustainable solutions for our nationwide customers. Some examples of these solutions include our ability to guarantee long full life-cycle batteries to our customers.

We also encourage customers to swap used batteries for new ones with incentives, so they can save costs and we can operate in an environmentally sustainable manner.

ASEAN-OSHNET BEST PRACTICES AWARD 2016

Responsible Care® Certificate

AEO Importer Level-1

Proven Technology Industry

Proven Technology Industry Company Limited (PTIC) is Myanmar's leading lead acid battery manufacturer for automotive, industrial standby and specialised applications uses. Its TOYO and LION batteries are the brand leaders of Myanmar automotive lead acid battery market.

Established in 1996, PTIC is dedicated to maintaining international quality product standards and practices, including Occupational Health and Safety Assessment Series: OHSAS 18001, Environmental Management System ISO:14001 and International Automotive Task Force (IATF:16949). We are proud to be part of the Responsible Care® initiative and a recipient of the ASEAN-OSHNET Best Practices Award 2016, which recognizes our commitment to enhancing environmental, health, safety, and security performance in chemical-related manufacturing.

In addition, we have been awarded the Authorised Economic Operator (AEO) – Level 1 Certificate, which demonstrates our compliance with customs regulations, proper record keeping, financial solvency, and adherence to safety and security standards.

Our Vision

To maintain our position of being Myanmar's leading lead acid battery manufacturer, supporting the development of the automotive assembly and manufacturing sector in Myanmar. We aim to become a recognised Myanmar product brand in the region.

Our Mission

"Customer Satisfaction and continual quality growth by Solution of Success".

We are committed to providing quality products, and excellent services. We provide consultation on selection of battery types, proper installation, inspection, maintenance, product warranty, free check-up programme at sale centres and free scheduled on-site-check-up programs. We keep in touch with our dealers and customers to improve our product and service quality. We called this our "Solution of Success".

Our Commitment

We are committed to offering high quality products and services to our valued customers. We stand by our product quality by offering warranty and worry-free battery care roadside assistance in major cities.

YANGON METAL INDUSTRY

Yangon Metal Industry

Yangon Metal Industry Company (YMI) was established in 2005. The company buys and collects millions of used lead-acid batteries throughout Myanmar and transforms them into secondary lead. In other words, YMI converts waste batteries into raw materials for other industries.

YMI supplies refined and alloy lead to battery manufacturers and industrial users around the world, contributing to sustainable resource utilization and environmental protection.

PROVEN
ENERGY

Established in December 2024, Proven Energy Co., Ltd. is a renewable energy company under Proven Group of Companies, dedicated to advancing Myanmar's clean energy transition. We are a trusted provider of innovative and sustainable energy solutions, committed to delivering clean, reliable, and affordable power through renewable technologies.

With expertise spanning residential, commercial, and industrial energy projects, Proven Energy delivers tailored solutions that integrate solar power, advanced battery storage systems, and large-scale renewable infrastructure—providing reliable, affordable, and sustainable alternative s to traditional energy sources.

OUR CSR ACTIVITIES

Sustainability and Corporate Social Responsibility (CSR)

Proven Group of Company Strongly committed to sustainability and corporate social responsibilities across all areas of our activities. These area include:

- . Environmental Management
- . Waste generation and recycling
- . Fair labour practices
- . Employee safety
- . Encouraging sustainable attitudes throughout our value chain
- . Developing products and solutions that promote sustainability

Our Commitments are assessed and certified by a range of internationally recognised certifications:

- IATF 16949 is the global quality management standard for the automotive industry. It emphasizes defect prevention, continuous improvement, and the reduction of variation and waste throughout the automotive supply chain.
- ISO 14001 (EMS) - for Meeting the requirements about significant environmental aspects, such as the environmental policy of our organisation, the nature of our activities, products and services and the location and the conditions in which they function.
- OHSAS 18001 for the satisfactory operation of our management system.
- Responsible Care - for our commitment to health, safety and security in the chemical industry by the Myanmar Industries Association and JETRO Yangon.
- Asean - OSHNET - best practices award 2016 in recognition for your contribution to workplace occupational safety and health by ASEAN member states and the Ministry of labour - Invalids and Social Affairs of Vietnam.
- Authorised Economic Operator (AEO) - Level 1 Certificate demonstrates our compliance with customs regulations, proper record keeping, financial solvency, and adherence to safety and security standards.
